EDUCATION

HEC Lausanne - University of Lausanne

Lausanne, Switzerland

MSc Finance, Asset and Risk Management

September 2025 - June 2027

- **Relevant Coursework:** Empirical Methods in Finance, Quantitative Asset and Risk Management II, Applied Investments, Fixed Income and Credit Risk, Derivatives, Sustainability Aware Asset Management.

LIUC - Università Carlo Cattaneo

Milan, Italy

BSc Business Economics

September 2022 - July 2025

- **Relevant Coursework:** Corporate Finance, Financial Markets, Accounting and Financial Reporting, Microeconomics, Macroeconomics, Mathematics, Statistics.

INDEPENDENT PROJECT

Rate-Regime Multi-Asset Book

Lausanne, Switzerland

When the Fed moves, which assets should you own?

September 2025 – Present

- A **live multi-asset book** of six ETFs positioned by monetary conditions (**Fed rates and liquidity**). It rebuilds itself from live data every weekday and rebalances monthly.
- **Built the full pipeline in Python:** data, signal, backtest, validation and publication. The page reports the result, the failures and the limitations.
- The page shows the position it holds today, **not a backtest**. See it at roberto-berardi.github.io/regime-monitor

PROFESSIONAL EXPERIENCE

Dream S.r.l.

Macugnaga, Italy

Business Analyst - Family-owned hotel in the Italian Alps

September 2022 – Present

- Rebuilt the pricing structure around seasonal demand and margin targets, adding minimum-stay rules to raise average stay length. **Profit grew 31% year on year in FY2025.**
- Analysed the financial statements to find where margin was made and lost, reviewed expenses for avoidable spending.
- Produced an investment memorandum for ownership exploring a potential sale: historical financial analysis, normalised EBITDA and **valuation of the business**.

Studio Rognoni Pesenti S.r.l.

Domodossola, Italy

Accounting and Taxation Intern

September 2024 – June 2025

- Handled bookkeeping and periodic close for client accounts: invoice entry, reconciliations, VAT calculations.
- Ten months of assembling statements taught me which numbers are facts and which are accounting decisions.

BRC Media

Milan, Italy

Co-Founder and Sales Representative

July 2023 – August 2024

- Co-founded a digital advertising agency serving real estate agents. Built and managed a portfolio of **20+ clients** over twelve months.
- **Led sales end to end:** calls, proposal, close, onboarding. Stayed the client's point of contact afterwards, answering questions, explaining results, managing expectations and advising where needed.

ACADEMIC PROJECTS

Has the Structure of Risk Changed since COVID-19?

Lausanne, Switzerland

Empirical Methods in Finance, HEC Lausanne

April 2026 – June 2026

- GARCH, DCC dynamic correlations, Markov-switching regimes and HAC-robust break tests. Shocks now take longer to decay, and the stock-bond correlation flipped: bonds no longer hedge equities, so 60/40 has lost its diversification.

Oil Shocks, the Yield Curve and U.S. Equity Returns

Lausanne, Switzerland

Empirical Methods in Finance, HEC Lausanne

February 2026 – April 2026

- Oil shocks move inflation, inflation moves rates, rates move equities. Tested whether that chain forecasts returns using ARX and VAR models and out-of-sample forecasts against a random walk. It does not: the market prices the shock before it is observable.

ADDITIONAL INFORMATION

- **Languages:** Italian (native), English (fluent), French and Spanish (conversational), German (basic).
- **Technical:** Python (pandas, NumPy, statsmodels, arch, scikit-learn) · Git · Microsoft Office · LaTeX
- **Interests:** Skiing (Competitive alpine ski racing until 17), weightlifting, running, Financial markets, cars.
